Results by AI exam

Exam	Model	Passed / attempts	Errors
Streaming items must equal what the full parse would have built	cli/codex	10/10	0
Answering questions from a document collection with outdated and distractor sources, and refusing when the evidence is insufficient	cli/codex	10/10	0
Updating a cross-session fact: answer from the newer authoritative roster, not stale carried memory	cli/codex	10/10	0
Streaming items must equal what the full parse would have built	cli/claude-sonnet	9/10	0
Answering questions from a document collection with outdated and distractor sources, and refusing when the evidence is insufficient	cli/claude-sonnet	1/10	0
Updating a cross-session fact: answer from the newer authoritative roster, not stale carried memory	cli/claude-sonnet	10/10	0
Streaming items must equal what the full parse would have built	codestral-latest	0/10	0
Answering questions from a document collection with outdated and distractor sources, and refusing when the evidence is insufficient	codestral-latest	0/9 + 1 lane error	1

First 8 of 9 model/exam results in report order. The complete table is linked on page 2. Technical errors are counted in attempts but are not model failures.

3 verified records. Compare models within the same exam and input condition.

What was evaluated

INPUT CONDITION

Conditions differ by exam and model lane; the detailed matrix retains each cell without merging unlike tasks.

EXAM AND REVISION

3 exam revisions; each fingerprint is retained in the detailed report

Limits on the claim

- This summary is accounting, not a leaderboard or a broad capability score.
- Low sample cells support counts only; no ranking is inferred.
- Lane errors, withheld and invalid attempts are retained outside the model-failure denominator.
- Per-exam conditions and quality axes remain in the detailed report.
